Wim speelt 12. ... 20-24?

Dragon Dammen geeft geen verbetering.

Kingsrow geeft aan dat 19-23 hier de betere zet is.

Wim had een ontsnappingsmogelijkheid uit de hekstelling:

John speelt 13. 50-44 wat niet de sterkste zet is. Toch bleek het afdoende om de winst in te luiden.

Wim speelt 14. ... 19-23?

De snelste weg naar een verloren partij.

Wim had wel de (tijdelijke?) schijfwinst voor John gezien.

Maar de damcombinatie was hem ontgaan.

Overigens speelt Kingsrow met de beste zetten voor beide spelers de partij ook uit.
